A BIG BLAZE.

The Wainee Church at Lahaina Laid in Ashes.

The Kinan brings the news that the old stone church in Lahaina has been destroyed by a fire which occurred at noon yesterday. Only the walls are standing, and the interior of the edifice is totally ruined. The origin of the conflagration is unknown, but it is generally supposed that it was caused by sparks from a burning pile of rubbish in the yard. The few poor g's who belong to the congregation have circulated a report that the blaze was created by an incendiary for the express purpose of "smoking Pali out"—nobody believes the yarn. A Bible, the sacred vessels and a harmonium were saved, but the property was demolished. The building is one of the oldest in the kingdom, and resembled the Kawaiahao church. It is a pity that the old land-mark has been devoured by the dreaded flames, and it is very doubtful whether the small congregation will ever have adequate funds to rebuild it.

The Kamehameha Schools.

The great educational institution erected by the late Mrs. Pauahi Bishop closed its annual work yesterday, and the long vacation started. The exhibition of the work done during the past year proves the school to be in a most excellent condition and the pupils have received a most careful training. The manual department is the most interesting part of the schools, and it was a pleasure to notice the skill and workmanship of the boys. The graduates go out in life well prepared to become useful members of society. The graduating exercises at the Kawaiahao Church last night were also interesting and were well received by the large audience present. Great credit is due to Mr. Richards, the principal and his staff of teachers and assistants.

The Fourth On Maui.

East Maui means to make a day of it on the Fourth. After the races at Kahului, a grand ball will be given at Spreckelsville by the H. C. & S. Co., and invitations are issued to all the dancing folks in the neighborhood. Special trains will run from Wailuku, Kahului and Paia, and return after the dance. The National Band has been retained to furnish the music, and a jolly evening is anticipated.

A Concert.

In spite of heavy rain the large hall in Kohala was well filled last Tuesday night, when a very pleasing entertainment was given by local amateurs. An excellent programme was carried out, and the audience was highly pleased. The well-known Honolulu virtuous Mr. Carl Widemann surprised the Kohala people with his skill on the violin—as the previously has surprised them as an expert bullock catcher. The musical portion of the programme was finished by a little light comedy. Kohala is quite civilized.

London, June 9. Chief Justice Coleridge, who has been seriously ill for some time, passed a bad night and is very much exhausted.

Washington, June 9. The Democrats of the delegation, naturally enough, do not like to admit that Attorney-General Olney was only bluffing and never intended to push the claim against the Stanford estate, but it is true, nevertheless. Olney does not believe that that method of procedure will be successful, and has so intimated to Senator Hear.

Providence, R. I., June 9. Miss Hope Goddard, daughter of Colonel William Goddard and heir to \$24,000,000, was married to C. Oliver Iselin, son of the late millionaire banker Iselin of New York today.

HAWAII'S "BLUE" LAWS

CONSTITUTION and LAWS

Framed by the Missionaries.

LAWS of the HAWAIIAN ISLANDS.

The business of the Governors, and land agents, and tax officers of the general tax gatherer, is as follows: to read frequently this law to the people on all days of public work, and thus shall the landlords do in the presence of their tenants on their working days. Let every one also put his own land in a good state, with proper reference to the welfare of his body, according to the principles of Political Economy. "The man who does not labor enjoys little happiness. He cannot obtain any great good unless he strives for it with earnestness. He cannot make himself comfortable, not even preserve his life unless he labor for it. If a man wish to become rich, he can do it in no way except to engage with energy in some business. Thus Kings obtain kingdoms by striving for them with energy." The divine teacher said to our first ancestors thus, "In the sweat of thy face thou shalt eat bread," and that is the business of those most particularly spoken of in this law. Reflect well on the meaning of the words spoken herein.

10. THE BUSINESS OF THE CHIEFS THE PRESENT YEAR.

On the first year after the promulgation of this law it shall be the duty of the chiefs under his Majesty the King to read frequently what is herein written, and reflect well on the meaning of this new law of the kingdom, and search out encouragement for the people to labor with the animating hope that the sweat of the face will obtain its due reward—to sustain the requirements of this law in order that the kingdom itself may be regenerated—to select suitable times to be devoted to seeking the welfare of the officers of the kingdom, and your own also, and that of the landlords and common people, together with that of strangers who are permitted to dwell in these islands, that they may prosper and be happy. This is the business for which you should meet for consultation: to promote the welfare of the industrious and of others—to disperse those lazy persons who live in hordes around you, through whom heavy burdens are imposed upon your laboring tenants; to look up agents capable of acting according to the requirements of this law, and tax officers both to aid the general tax gatherer, and to act on your own particular lands—to place your children and younger brothers in the High School of the nation—to seek for a higher kind of prosperity than that which we have heard existed under the reign of Kamehameha I., when the old man and woman, with the child, could sleep safely in the highway—to remove the ignorant land agents and those officers who tax the people unjustly. From which causes the people are oppressed and the kingdom impoverished. To put an end to every thing which is at variance with this law—to cherish that which will drive away the enemies of these islands—to put an end to your covetousness, by which the poor are dispossessed of that which is lawfully their own—to treat with kindness those who devote their strength to labor, till their tattered garments are blown about their necks, while those who live with you in indolence wear the clean apparel, for which the industrious poor have labored. Wherefore have compassion upon them in accordance with the requirements of that covenant to which you have sworn, "Love thy neighbor as thyself." Let the chiefs reflect well on these duties in order that they may perpetuate their ranks as chiefs on these islands. Scatter your people about upon the lands that they may cultivate them and become rich. Thus will their good will to us be increased, and thus the people of the kingdom will be eased somewhat of their burdens.
